Smart Toilet Collection

Smart Collection

The St George Smart Collection is conceived for contemporary architectural living. Each model is designed not simply as a bathroom fixture, but as an integrated design element — balancing intelligent technology with refined form.

From essential smart functionality to signature intelligent luxury, the collection evolves through enhanced comfort, automation and spatial presence while maintaining a cohesive architectural language.

Design-Led Form

Designed to complement contemporary bathroom interiors.

Clean lines, refined proportions and considered details allow St George smart toilets to sit naturally within modern bathrooms. More than a functional product, each design brings a sense of quiet sophistication to the space — with Mosman leading the range as the design-led flagship.

Luxury

Designed Specifically for Australian Homes.

Smart Toilets for Contemporary Australian Living

Designed for Australian bathrooms, St George smart toilets are built to make upgrading easier. With no in-wall cistern required and flexible set-out compatibility, they help reduce renovation complexity and fit a wider range of existing bathroom spaces.

Cleaner Living

More than a toilet. A smarter,
more comfortable daily experience.

With water cleansing, automatic flushing, self-cleaning functions and hygiene-focused technologies, St George helps create a fresher way to use the bathroom. Less contact, fewer odours and a cleaner daily routine.

Brighton

Advanced Wash
Experience

Comfort by Design

A warmer, easier, more caring
bathroom experience.

From a heated seat on cold mornings to a 470 mm comfort height that makes sitting and standing easier, St George smart toilets are designed with everyday care in mind. Every detail helps bring more comfort, support and confidence to daily bathroom routines.

Miranda

Everyday Smart
Comfort

1

Warmth & Comfort

No more cold seats. Easier sitting and standing.

Designed for comfort, the St George smart toilet collection offers thoughtfully designed seating heights to suit different preferences and bathroom requirements. Combined with heated seating, warm air drying and soft night lighting, every model is designed to deliver a more comfortable daily experience.

2

Water Cleansing

A fresher, more comfortable way to stay clean.

Water-based cleansing offers a more refreshing alternative to traditional toilet paper. With multiple wash modes designed for different needs, St George provides a gentle yet effective cleaning experience that feels more natural, more hygienic and more comfortable every day.

3

Touchless Experience

Less touching. Easier use. Better hygiene.

Smart sensing and automatic functions reduce the need for physical contact during use. From automatic lid opening and closing to hands-free flushing and remote control operation, St George makes every step simpler, cleaner and more convenient for everyday use.

4

Cleaner Bowl Technology

A cleaner bowl with every flush.

Advanced bowl protection technologies help reduce waste adhesion and improve flushing efficiency. With Waterfilm™ protection, Verticoat™ ceramic coating and Jetflush™ technology, the bowl stays cleaner for longer and is easier to maintain in daily use.

5

Easier to Install

No in-wall cistern. Flexible set-out. Easier upgrades.

Designed specifically for Australian bathrooms, St George smart toilets eliminate the need for an in-wall cistern. Combined with flexible set-out compatibility, they simplify installation while adapting to a wide range of bathroom layouts, making renovations and replacement projects easier and less disruptive.

Built for Renovation

Designed to simplify every upgrade.

Whether replacing an existing toilet or renovating a bathroom, St George smart toilets are engineered to reduce installation complexity. The integrated tank design helps minimise construction work, creating a faster, cleaner and less disruptive upgrade experience.

Which experience is right for you?

Byron

Essential Smart Comfort

A simple introduction to smart comfort. Designed for everyday reliability with essential cleansing and heating functions. Ideal for first-time smart toilet users.

Miranda

Everyday Smart Comfort

Enhanced everyday comfort with warm cleansing, heated seating and automatic functions. A balanced choice for modern family bathrooms and multi-generation use.

Brighton

Advanced Wash Experience

A more advanced cleansing experience with multiple wash modes including hot and cold cleansing. Designed for users who value personalised and precise hygiene control.

Coogee

Premium Smart Luxury

Focused on hygiene protection and everyday wellbeing. UV sterilisation, deodorisation and touch-reduced features create a cleaner and healthier bathroom environment.

Mosman

Architectural Smart Luxury

The most refined expression of the range. A design-led smart toilet with premium detailing and flexible installation, ideal for modern bathrooms and design-driven renovations.

Mosman
Architectural Smart Luxury

Architectural Remote Design

Finished with a premium aluminium-faced front panel, the remote combines refined architectural styling with intuitive everyday control.

UV Water Sterilisation

UV sterilisation helps purify the cleansing water before every use, supporting improved hygiene and providing greater confidence in everyday bathroom routines.

Kick Flush Technology

A simple foot-activated flush system designed for maximum convenience and hygiene. No need to touch buttons — a light kick triggers flushing for a cleaner, more effortless bathroom experience.

Brighton
Advanced Wash Experience

Advanced Wash Modes

Multiple cleansing modes designed to deliver a more advanced and tailored washing experience. From everyday use to more precise cleaning needs, Brighton offers greater control and flexibility in personal hygiene.

Pulsating Wash

A rhythmic pulsating water flow designed to enhance cleansing comfort and effectiveness. It provides a more dynamic and refreshing wash experience compared to standard steady water flow.

Hot & Cold Wash

An alternating warm and cool water wash designed to create a refreshing, massage-inspired cleansing experience. The change in water temperature helps stimulate comfort and leaves a cleaner, more energised feeling after each use.

Miranda
Everyday Smart Comfort

Elevated 470 mm Comfort Height

The elevated 470 mm comfort height provides a more natural sitting and standing position, delivering enhanced comfort and ease of movement.

Warm Air Dryer

A gentle warm air drying system that reduces the need for toilet paper, providing a more comfortable, hygienic and convenient finishing experience after cleansing.

Air-Mix Wonder Wash

A soft air-mixed water cleansing system designed to deliver a gentler and more comfortable wash experience. The combination of air and water creates a smoother flow that feels lighter and more natural on the skin.

Essential Smart Comfort

Heated Seat

Welcome warmth, every day. The heated seat provides lasting comfort on cooler mornings, creating a more enjoyable bathroom experience.

Verticoat™ Ceramic Protection

Designed to stay cleaner for longer. The smooth ceramic surface helps reduce waste adhesion, making everyday cleaning quicker and easier.

Automatic Flush

Convenience that happens automatically. The toilet flushes after use, reducing touch points and supporting a cleaner daily routine.

Important Installation Information

Installation must be carried out by licensed tradespeople.

Plumbing work must comply with the applicable requirements of AS/NZS 3500 and local authority regulations.

Electrical work must comply with AS/NZS 3000 (Wiring Rules) and all applicable statutory requirements.

Product performance depends on compliance with the supplied installation instructions and the required water supply conditions.

Minimum operating water pressure and flow requirements vary by model. Refer to the installation manual for model-specific requirements.

Product specifications and features may change without prior notice as part of our ongoing product development programme.
